Hey Resh! Morning man. Just wanted to thank you cause I learnt sooooo much from you for the past weeks!! Insane profits day yesterday. My portfolio increased by 50% just in two weeks! I started w a 4-figure portfolio and it's now in the range of 5!!

Incredible

I started my IB account with only USD1000 and within a short 6 days time, my account has 5X! Talk about EXTREME WEALTH TIMEEE 🔥 None of this would've been possible if you hadn't filled that information gap for us all.

Started with only \$1000!

5X initial capital in 6 days!

Seems too easy!

More than USD\$1,000 profit and 50% up!

Resh! Sold my first put on Monday and closed my first call yesterday and I made USD1.1k in a week and my portfolio is up around 50% 🤖
🤖 That's more than my job salary but way less time spent staring at my computer screen. Its nuts and almost seems too easy that I feel bad for profitting haha. My only regret is not starting earlier but better late than never. Thanks for all the motivation even though mine was mostly fuelled by the jealousy of seeing everyone's gains 😂😂
Hope you have an amazing weekend!!

Because of you, I got some profits! Thank you!

**BUT WAIT...
There's one important thing you need to know.**

The investing goals and strategies for an investor with a \$3,000 portfolio are simply not the same as for an investor with a \$300,000 portfolio.

If you're an investor who is just starting out, you might quickly realise you can't do exactly what the big boys like Warren Buffett and Paul Tudor Jones are doing.

Because it's like trying to do a triathlon but not even knowing how to swim or cycle!

That's why this programme is aptly called "Road to 1 Million".

It's a road, a path, a journey. And we have to take it step by step.

"I don't fear the man who has practiced 10,000 kicks.

I fear the man who practiced one kick 10,000 times."

- Bruce Lee

Bruce Lee understood the principle of practice makes perfect.

So do we. That is why we paid special consideration to different portfolio sizes.

In Road to 1 Million you'll get the chance to practice and perfect your investing skills to **grow your 4-figure portfolio to a 5-figure portfolio, and then take it to 6-figures, until you achieve a 7-FIGURE PORTFOLIO, your first million!**

Yes, making your first million is POSSIBLE.
But you and I know it can't happen overnight.
Investing is no get-rich-quick scheme.

All you have to do is take the first step towards your first million.

Because we know how important it is. And we know that at such a low monthly fee, you can easily make it back in just one trade.

That's why we feel so confident to offer this to you. Because we have seen the results of our students in Road to 1 Million. We know it works, we know it helps.

Ian

Awesome! I closed a little early and missed this gap, but i guess this is thr first step of experiencing, "it never hurt to take profits"

Had a 70% profit despite missing out on the gap.

Hi guys, a massive thank u to all coaches / mentors (Jeat, Wei Jie & Kay) for the support you all give to FIC. Thank you to Jeat for NVO - I just took profits at \$5.90 Approx 68%. 😊

Sonia Tan
Thank you so much coaches!

I decided to close last night at 40+% and just take profits. Slowly saving up again.
(cos my Aapl call is so red)

Will re-enter if it drops back down to 68+ again. 😊

But we know that you'll find it incredibly useful, just like these students:

So I think in this way we will grow very fast.

All our 3 coaches r members of JIC n sometimes they share tips from RESH n whether the tips work 4 u, only time can tell bcos v hv limited bullets. One wrong shot will set us back a few mths as v need 2 gather enough ammo 2 go into the market again. As 4 me, the lessons shared by the 3 coaches r fantastic. Those info I called them leads 2 do our research n with research v hv conviction. N with conviction v make our own decisions based on our own risk profile.

I feel all of you who felt that you all have missed out, and feeling somewhat FOMO. Truth is, I learnt that even when we are seeing profits, we fear that what if the price goes even further up after we take profit. When we didn't enter a trade and then the price shoots up, we felt we missed out. No matter what, our emotions kept going up and down, in any direction of the share prices. So, I feel that we have to learn to be ZEN. 🙏 This is a self reminder. 😊

I want to take this opportunity to thank our coaches here - Jeat, Kay, Wei Jie, who are always so kind and supportive. 😊 You guys make investment fun and interesting for us. 🙏
